## SELF INTRODUCTION

I am a Brazilian international student living in Japan, a senior pursuing a Bachelor's degree in Applied Physics Engineering with a minor in Data Science. My research focuses on Brushless DC Motor Control through PWM, and throughout my university years, I have developed skills in programming, data science, and Excel. I have experience with programming languages such as Python, C, and R, and a major interest in control engineering and embedded systems.

In addition to my academic work, I have actively participated in various groups and projects both inside and outside of classes. These experiences have been significant in developing my teamwork, communication, and leadership skills. In addition, studying programming has helped me to develop my logical reasoning and organization skills.

I am currently searching for an internship or full-time position in the IT and Technology industry. My goal is to work alongside experienced professionals to acquire industry-relevant skills and further develop myself in this field. I aim to contribute with my knowledge and skills to projects while continuously learning and growing.

## KEY COMPETENCIES

Control Engineering	Microsoft Excel	Communication skills
Programming: Python, C, and R	Critical thinking skills	Proactive and self-motivated
Data Science	Logical reasoning	Leadership and Teamwork

## PROFESSIONAL EXPERIENCE

- Soka University**
  - Introduction to Data Science Class**
    - Undergraduate Teacher Assistant (Part-time Job)** April 2023 - Present  
Assist the professor inside and outside class, preparing the material and helping the students that have doubts.
  - World Language Center - Self Access Center**
    - Assistant Manager (Part-time Job)** April 2023 - Present  
Assist managers with tasks related to the ESL Programs, for instance, assist students with doubts, prepare students database using Excel, and creating promotion posts
    - Program Staff - English Forum (Part-time Job)** April 2021 - January 2023  
Conduct 60-minutes academic discussions of medium and advanced level English
- Soka Gakkai International - International Exchange Department**
  - Supporting Staff (Part-time Job)** November 2023 - Present  
Conduct explanatory meeting regarding visitations in foreign languages: English and Portuguese. In addition, translate some materials from Japanese to the target languages
- Chinese Restaurant Hakubun**
  - Waiter (Part-time Job)** April 2022 - Present  
Customer service in Japanese, and when needed English. In addition, assisting the kitchen and managing the meal plates presentation

## EDUCATION

**Bachelor of Science and Engineering - March 2025 (Expected)**  
Soka University - Faculty of Science and Engineering  
Department of Science and Engineering for Sustainable Innovation  
Applied Physics major, Data Science minor

## AWARDS

**Soka University**  
Da Vinci Award - 2022 - Award presented to students who posses outstanding intellect and rich sensibility  
Schliemann Award - 2021 - Award presented to recognize the language achievements of students.

## EXTRACURRICULAR ACTIVITIES

**Soka University Festival - International Students Cafe**  
Department Head 2022  
Department Staff 2021  
**Waraku Kanki - Soka University Brazilian St. Group**  
Leader 2023  
Vice-leader 2022

## LANGUAGES

Portuguese	Native		
English	Fluent	TOEIC 990	2021
Japanese	Business	JLPT N2	2021
